## BAYPORT MURDER STILL A MYSTERY.

Authorities Halt Between Two Suspicions, with no Clews to Work On.

TRAMP IN CASE KNOWN.

Has Travelled Both Shores of Long Island, and Is Known to Many Residents.

EVIDENCE POINTS ANOTHER WAY.

It All Inclines to the Theory That the Wife Slew Her Husband, Unintentionally, in a Fit of Anger.

Mystery still surrounds the murder of Charles Le Cluse, at Bayport, L. I. The local authorities and the sons of the murdered man, in the absence of clews, halt between suspicion that the tramp in the case, or their mother before her death,

committed the deed. The tramp, although not known by name, is well known by sight to nearly all the families on both sides of Long Island. He could be caught, it is believed, if discov

eries were made which pointed to his guilt. The neighbors still believe that Mrs. Lo Cluse killed her husband. Some members of the Coroner's jury to-night thought so, too, but as there could be no evidence on this point the verdict could be framed only so as to imply as much. Those who contend that the wife siew her husband in a fit of anger reason it out in this way:

Mrs. Le Cluse had "spells" and was, at times, clearly demented. Since the time that an engine of the Long Island Rallroad were driving near Patchogue about seven years ago the wife had been almost an invalld, but always petulent and nervous. She contended, for some real or fancled reason, that her busband had tried to drive in front of the engine so that she might be killed.

The old couple quarrelled frequently. It may be that the wife, in a moment of tem-

It is not probable that anything further will be done in the case.

The funeral of the old couple was held yesterday afternoon from the cottage. It was not half large enough to accommodate the villagers. Rev. Dr. Wooley, pastor of the Bayport M. E. Church, of which both had long been members, conducted the service, The couple were buried side by side in the family plot.

My fan to him and tried to stanch the blood with the tights James had removed a few moments before.

Within a moment or two a crowd had gathered on the public pier, attracted by the plstol shot. When little Tommy Grimes explained that his brother had been shot by the watchman of Young's bagging factors.

Caught a Pedler with Much

Demonstrations have been made in Jersey City during the last three weeks that were eminently satisfactory. They were made possible by the liberality of ex-Sensitor John R. McPherson, who donated a sum sufficient to provide for a large enough number of patients to afford a practical showing of the worth of the new remedy.

The tests in Jersey City showed that the chlorine gas reduced the temperature of the manual color. William over the head cutting a bad gash. In return William took a shot at Thomas, but missed him.

The both grappied for possession of the knife, and in the serimage Thomas received several wounds and William another gash in the face. When separated both men were of collapse from loss of blood. As neither would prosecute, no arrests were made.
